

AAPI Statistical Profile Interview Questionnaire

The South Carolina Commission for Minority Affairs focuses on research and resources for the communities we serve. Our research team is compiling a statistical profile that will highlight the many different cultures and ethnicities that encompass the growing AAPI community in South Carolina. Our goal is to provide the community and its stakeholders information on the socioeconomic growth of the highly diverse AAPI communities to help move them forward. Help us share the many stories and faces of the AAPI community in South Carolina by filling out our questionnaire.

(Please feel free to leave any questions blank that you are not comfortable answering)

Name:

Age:

Gender:

Ethnicity:

Languages spoken:

Marital Status:

Education (highest degree completed):

Location (city and county you reside):

Household size (including yourself how many people do you live with?)

Occupation:

- Do you think it is difficult to maintain contact with your culture living here in South Carolina? If yes, please give one or two examples?

- What are some of the ways you stay connected to your culture here in South Carolina?

- Do you feel that your ethnic background or language ability (if English not primary language) has limited you in any way from being successful in South Carolina? If yes, what do you think would remedy that situation?

- What do you think are the future barriers and opportunities that Asians and Pacific Islanders might be confronted with in South Carolina? Do you think that things will get easier or harder for AAPI individuals in this state?

Please return this questionnaire to Christine Currie, AAPI Program Coordinator, at ccurrie@cma.sc.gov. If you have any questions, please call 803-563-1977.
